NEWS FROM THE CIN BUREAU

This year the Bureau is holding its annual meeting on 26-27 March in Berlin at the invitation of the Director of the Münzkabinett of the Staatliche Museen zu Berlin, and at the same time the members of the Bureau will pay a visit to the Coin Cabinet in Dresden. Any matters submitted by members of the Commission will be considered by the Bureau, and a report on the meeting will be published in the next Newsletter.

One of the major concerns of the Bureau is the next international congress, the preparations for which are in the hands of the Royal Numismatic and the British Societies in London. In the last Newsletter the names and addresses of the editors and the teams of contributors preparing the next Survey of Numismatic Research were published. An additional list of contributors is published in this issue. Opportunity is taken to urge everyone who produces an article to supply an offprint to the appropriate team member to expedite the compilation of the Survey.

The Bureau continues its efforts to extend the membership of the Commission and would welcome additions to its ranks. We are pleased to announce the admission of the following new members:

- Bayerische Numismatische Gesellschaft E.V., Munich, Germany
- The Nickle Arts Museum, Calgary, Canada
- Fundação Calouste Gulbenkian, Lisbon, Portugal.

An information booklet on the Commission and its activities can be obtained from the Secretary or any member of the Bureau.

R A G Carson
President

Survey of Numismatic Research 1978 - 1984

Additional list of contributors

Medals (ed. Mark Jones)

Austria	Bernhard Koch, Vienna
Czechoslovakia	Elena Minarovičova, Bratislava Hrad
Denmark	Kirsten Bendixen, Copenhagen
France	Michel Pastoureau, Paris
Germany	Ingrid Szeiklies-Weber, Munich
Greece, Bulgaria, Romania, Yugoslavia	Octavian Iliescu, Bucarest
Great Britain and Ireland	Thomas Stainton, Beaconsfield
Holland, Belgium, Luxembourg	Gay van der Meer, 's-Gravenhage
Hungary	Viktoria L. Kovasznai, Budapest
Italy	Franco Panvini Rosati, Rome
Poland	Adam Wiecek, Wroclaw
Spain	Javier Gimeno, Madrid
Sweden, Norway, Iceland, Finland	Tamás Sárkány, Stockholm
The Americas	Raymond J. Herbert, Washington DC
Russia	Terence Mullaly, London
Switzerland	Peter Felder, Kütingen
Contemporary medals	Mark Jones, London
General books on medals and medals treated by subject	Stephen Betts, San José, CA

CONGRÈS - COLLOQUES - SYMPOSIUMS

Varsovie, 4 mai 1983

La Société archéologique et numismatique polonaise a tenu à Varsovie sa deuxième session consacrée à l'état actuel des recherches et à la définition des perspectives de la numismatique en Pologne au Haut Moyen Age (rapports de A. Kmietowicz, monnaies orientales; J. Piniński, monnaies occidentales; S. Suchodolski, monnaies indigènes; B. Haczewska, bractéates).

S. Suchodolski

Piotrków Tryb. /Pologne, 11-12 septembre 1983

La Société archéologique et numismatique polonaise (Section de Łódź), en collaboration avec le musée local, a organisé un colloque national consacré à la mémoire de Kazimierz Stronczyński (1809-1894), savant universel, qui créa la recherche systématique de la monnaie polonaise médiévale. Les mérites de Stronczyński pour la numismatique (S. Suchodolski, J. Piniński), la sigillographie, la héraldique (S.K. Kuczyński) et la conservation des monuments d'architecture (T. Rudkowski), furent rappelés. Le centenaire de la parution de son oeuvre principale 'Les monnaies anciennes

de la dynastie des Piasts et des Jagellons', Piotrków 1883-1885, a servi de pré-texte à l'organisation du colloque.

S. Suchodolski

IIIe conférence numismatique polono-tchécoslovaque, Mogilany et Kraków, 13.- 15.10.1983

La Société archéologique et numismatique polonaise ainsi que les Sociétés numismatiques tchèque et slovaque ont organisé à Mogilany, près de Cracovie, leur troisième conférence consacrée à 'La politique monétaire: valeur nominale et valeur réelle de la monnaie'. La première séance de travail a été inaugurée par Z. Zabiński (Cracovie) avec une conférence sur l'économie du monnayage en général. Ensuite, S. Suchodolski (Varsovie) a examiné le dilemme de la monnaie de pleine valeur en Pologne dans le Haut Moyen Age. J. Sejbal (Brno) a présenté la question de la valeur nominale et de la valeur réelle de la monnaie morave aux XIVe et XVe siècles. Le texte de R. Nový (Prague) concernant le monnayage tchèque à l'époque des husites a été lu par E. Simek (Prague).

Au début de la deuxième séance de travail, M. Dygo (Varsovie) a comparé la valeur de la monnaie polonaise avec celle de l'Ordre Teutonique aux XIVe et XVe siècles. Ensuite, L. Nemeskal (Prague) et E. Simek ont présenté les problèmes de la politique et de la production monétaire en Bohême du XVe au XVIIe siècles. Cette séance s'est clôturée sur le rapport de J. Reyman (Cracovie) sur la politique monétaire des souverains polonais au XVIe siècle.

Le 15 octobre, les participants à la conférence se sont rendus à Cracovie où ils ont visité l'exposition organisée au château royal de Wawel à l'occasion du 300e anniversaire du siège de Vienne. Ils ont ensuite assisté à l'inauguration d'une exposition numismatique préparée par le Cabinet des médailles du Musée national.

L'après-midi, la séance de clôture avait lieu à Mogilany. S. Kazimir (Bratislava) a parlé de la circulation de monnaies polonaises en Hongrie. Ce sujet a été poursuivi par A. Mikolajczyk (Łódź) qui a montré les liens entre la circulation monétaire et la valeur nominale de la monnaie. D. Svobodova (Prague) a présenté le problème du commencement de la monnaie de crédit (billets de banque) en Bohême au XVIIIe siècle. Le rapport final de T. Bylicki (Varsovie) concernait les moyens de réaliser des profits monétaires en Pologne au XVIIIe et dans la première moitié du XIX siècle. Cette séance s'est terminée avec le résumé des résultats par R. Kiersnowski (Varsovie). La IVe conférence aura lieu en Tchécoslovaquie en 1985.

S. Suchodolski

Anjaneri / India, January 9 - 10, 1984

On the occasion of the inauguration of the Indian Institute of Research in Numismatic Studies, P.O. Anjaneri, Dist. Nasik (Maharashtra), an International Seminar on 'Numismatics and History' was held. The papers delivered were as follows:

- Dr. Paul Bernhard, Paris/France. The Coinage of Eudomos, a Greek Satrap of the Punjab.
Dr. A.K. Narain, Madison WI/USA. Some Brahmanical Divinities on the Indo-Greek Coins - Revisited.
Dr. D.W. MacDowall, London/UK. Context of Azes Dynasty.
Dr. R.J. Hebert, Washington/USA. Rome in India.
A.M. Shastry, Nagpur/India. Early Currency Systems of the Deccan and Western Contacts.

- Dr. Shobhana Gokhale, Pune/India. India's contact with the West in the Satavahana Period.
- Mr. William F. Spengler, Colorado/USA. Some new Numismatic Evidence regarding Royal Nomenclature and Titulature in the Ghurid Period.
- Dr. J.L. Bacharach, Washington/USA. Debasement of Medieval Middle-East Coins. Did Contemporaries know?
- Dr. W.H. Siddiqui, Delhi/India. Indian Overseas Trade during the Later Mughal Period.
- Mr. Avinash Upadhyay, Nagpur/India. A Hoard of Copper Coins of Kuninda Amoghabhuti.
- Mr. P.P. Kulakarni, Nagpur/India. Bhonsla Coins of Nagpur Mint.
- Dr. L.B. Keny, Bombay/India. Ancient Indo-Roman Trade and Kushana Gold Coins.
- Dr. Devendra Handa, Chanigarh/India. Coins of Mitras of Punjab.
- Messrs. K.W. Wiggins and S.L. Goron, London/UK. The Gold and Silver Coins of Sikhs.
- Dr. C.S. Gupta, Nagpur/India. The Coinage of Maharawala Lakshmana Singh of Banswara.

The following contributions were made in absentia:

- Dr. D.W. Dobbins, Minnesota/USA. The Origin of the Vikrama Era - Evidence of Coins and Inscriptions.
- Dr. B.N. Mukherjee, Calcutta/India. Trade and Internal Media of exchange in two Empires of the Early Medieval Age.
- Mr. K.D. Kawadkar, Nagpur/India. Roman coins from Uparvani.
- Mr. N. Sankarnarayana, Madras/India. Treasure Trove Finds of Venetian Coins from Pavithram in Tamil Nadu.
- Prof. K.D. Bajpai, Sagar/India. New Numismatic Discoveries from Madhya Pradesh.

The Institute will hold a seminar every year in January on some important topics of Indian numismatics to mark the foundation day. Every second year it will organise an international seminar wherein scholars from outside India will participate. The next seminar will take place in 1986 on 'Numismatics and Archaeology': the interpretation of coins found in archaeological excavations as historical sources. Scholars interested may contact the Director.

E N P R E P A R A T I O N

Washington

29-31.3.1984: National Gallery of Art, Center for Advanced Study in the Visual Arts: Symposium on Italian medals and plaquettes.

Varsovie

6.- 7.4.1984: Troisième conférence de la Société archéologique et numismatique polonaise consacrée à l'état actuel des recherches et à la définition des perspectives de la numismatique en Pologne (Bas Moyen-Âge).

Milano

16.-18.4.1984: Numismatics and the Computer.

Numismatic data are particularly suited to automatic processing. Coins and medals are, for the most part, 'multiples' and there already exists among students a wide measure of agreement on methods of description and on technical vocabulary. Further, much scholarly interest in coinage lies in the various kinds of quantitative study to which computer programs can be readily applied. Accordingly, the organising committee of the Second International Conference on Automatic Processing of Art History Data and Documents (Pisa, September 1984) proposes that a special session of the conference be devoted to the problems of registering numismatic materials. The purpose of this session will be to examine the possibility of creating an international data base for numismatics, which will serve as a pilot for similar systems in other fields of Art History and Archaeology. For further information on the Pisa conference, please write to Dott.ssa Laura Corti, Scuola Normale Superiore, Piazza dei Cavalieri 7, 56100 Pisa, Italy.

For detailed proposals for common working procedures to be considered at the plenary meeting in September, it is planned to hold in Milan, 16-18 April 1984, a series of working sessions at which interested scholars will review work in progress and evaluate the technical systems employed. The Civiche Raccolte Archeologiche e Numismatiche will be responsible for the arrangements and enquiries should be made of the Director, Dott. Ermanno Arslan, Castello Sforzesco, 20121 Milano, Italy.

As part of the preparations for both the April and September meetings, institutions and scholars having experience in applying computers to numismatics or proposing relevant projects are invited to report details of their work to Mr. T.R. Volk, Department of Coins and Medals, Fitzwilliam Museum, Cambridge CB2 1RB, Great Britain. Areas of interest for a projected 'dossier' on Numismatics and the computer include Museum collections, Coins from excavations, Hoard finds, and Metallurgical investigation.

Minden

25.-27.5.1984: 29. Nordwestdeutsches Münzsammlertreffen anlässlich des 200. Geburtstages von F.W. Bessel unter dem Motto 'Astronomie und Astrologie auf Münzen und Medaillen'.

COIN HOARDS - TROUVAILLES MONÉTAIRES

Sardis (Turkey).

During the excavations, the Harvard University discovered in 1982 a late Roman bronze hoard. Because of time constraints in 1982, cleaning of the coins was postponed until the 1983 season, and conservators Larry Majewski and Kent Severson (Institute of Fine Arts, New York University) have only just lifted the veil of surface corrosion - which here and there included textile pseudomorphs mineralized textiles, presumably spoor of the original wallet or money bag. The total 695 coins revealed are by and large a homely bunch, with all too many familiar faces (i.e., the 4th and 5th century A.D. issues of the time of Arcadius, Honorius, Theodosius II

so common elsewhere at Sardis). If no beauties, however, they are remarkably well preserved, even, and notably, the little minimi that make up half the total. Hoards are uncommon enough in controlled excavations, and this one should shed light on conditions that led to the important coin reform of Anastasius I in 498, since none are later and many only slightly earlier than that event. - All these details from Barbara Burrell (University of Pennsylvania), who is preparing a definitive study of the hoard.

(From the First Newsletter from Sardis, July 21, 1983.)

Additional information has been given to us by the Field Director of the Excavations, Prof. C.H. Greenewalt, Jr., University of California, Berkeley:

'The coins were not recovered in a container (so do not constitute a hoard in some people's definition of the term); but they were recovered in a dense cluster (many stuck together; none recovered from sieving in the earth round about). The total number is 695, with four 'small batches of coin fragments' without edges; all bronze. Four Hellenistic and Roman Imperial coins and many coins of Anastasius give the collection a chronological range of ca. 600 years, or more. About half the coins are minimi (with a diameter of 0.10 m. or less); folles are absent.'

WORK IN PROGRESS

Anjaneri / India

The Numismatic Digest, published so far by the Numismatic Society of Bombay, has now been adopted by the Indian Institute of Research in Numismatic Studies, Anjaneri (Dist. Nasik, Maharashtra), as its Research Journal and will be published half-yearly. The first part for 1984 is expected to be out in March.

Dr. P.L. Gupta and T.R. Hardakar, Ancient Indian Punch-marked Coins of the Magadha-Nanda-Maurya Empires.

Athens

Dr. Mando Oeconomides is preparing the publication of the Collection Ant. Christomanos donated to the Numismatic Museum (Athens. SNG, Greece; Numismatic Museum).

Two articles by her, one on Three Byzantine Hoards of the 13th century, and another about a Hoard of Alexander's Tetradrachms from Trikala, will appear respectively in *Festschrift I. Karayannopoulos* (special volume *BYZANTINA*) and G. Mylonas.

Dr. I. Touratsoglou will contribute to the *Festschrift I. Karayannopoulos* with an article on a Late Palaeologan Coin Hoard presumably from Constantinople (1954) and to the *Festschrift G. Mylonas* with A New Hoard of New Style Athenian tetradrachms from Chalkidike/Macedonia.

Kuala Lumpur / Malaysia

The Malaysia Numismatic Society is actively engaged in a catalogue of Portuguese-Malaccan coins - 1511 to 1641. The period covers the reigns of Manoel I, Joao III, Sebastiao, Felipe I to Felipe III and Joao IV.

The Society is in great need of good photographic illustrations for full listings of coins minted either at Malacca or issued by Lisbon, Goa and other mints for use in Malacca during the 130 years of Portuguese occupation. The Society solicits support and collaboration from collectors in this particular branch of Luso-Indiano Numismatics, relying at present only on Da Cunha (1879), Hanitsch (1905), Grogan (1916), Seaby's Sale List (1961), Peres (1963), Shaw & Kassim Ali (1970) and Vaz (1980) for background information and illustrations.

Collaborators are requested to communicate with Mr. E.E. Sim, F.R.N.S., President, Malaysia Numismatic Society, G.P.O. Box 12367, Kuala Lumpur, Malaysia. All contributions will be gratefully acknowledged.

Sydney

Paros Coins Sought. - Kenneth Sheedy, a doctoral candidate in the Department of Archaeology, Sydney University, would be grateful to receive information concerning archaic Parian coins, particularly those now held in private and public American collections. Archaic Parian staters are as BMCParos 1-2. The drachms of this period, however, were initially attributed to Celenderis: BMCCelenderis 1-3 (obverse goat, reverse incuse square). Obols previously marked as 'uncertain Macedonia', showing an obverse type of goat without reverted head - for example Weber Coll. 1838, are also Parian. Mr. Sheedy can be contacted c/o Department of Archaeology, University of Sydney, Sydney 2006, NSW, Australia.

Łódź / Poland

Numismatics in the Archaeological and Ethnographical Museum.

The past six years brought an intensive activity of the Archaeological and Ethnographical Museum. The permanent numismatic exhibition entitled 'History of the Money', covering ca. 2000 coins and banknotes from their beginnings to the present days, was opened in May 1978; two guide booklets 'Dzieje pieniądza papierowego' (History of the Metal Money) and 'Dzieje pieniądza papierowego' (History of the Paper Money) by A. Mikolajczyk were printed already in 1977. Another, temporary exhibition was opened on the same day, displaying 'The numismatic treasures of Havana: money on Cuba in the 16th-20th century' from the collection of the Numismatic Museum of the National Bank of Cuba in Havana. A suitable guide, written by Mrs. A. Amor, was published in Polish. Two years later, the Archaeological and Ethnographical Museum was invited to present at the Numismatic Museum in Havana the exhibition 'Monetary circulation in Poland from the 17th to early 19th century' (opened in June 1980) and the guide 'La circulación monetaria en Polonia desde el siglo XVII hasta principios del siglo XIX' by A. Mikolajczyk was published by the Cubans.

In the meantime, the keeper of the Numismatic Department, mgr. A. Gupieniec, retired and the post was taken over by mgr. Piniński, formerly working in the coin cabinet of the National Museum in Szczecin.

On account of the increasing necessity to establish an own numismatic journal devoted to the numismatic collection and other sources - omitted in actual Polish periodicals -, the museum started 'Prace i Materiały Muzeum Archeologicznego i Etnograficznego w Łodzi' as yearly journal. The first volume dated 1981 had to bide its time in press and under censorship after the martial law was introduced. The successive three volumes of the new journal are therefore delayed.

Late in January 1982, the museum was allowed to reopen its exhibitions and the Numismatic Department participated in a new exhibition showing 'The ethnographic and numismatic acquisitions in 1981'. It revealed - to the satisfaction of numerous visitors - a very prosperous year 1981, the year of the 50th anniversary of the foundation of the museum. The next temporary exhibition 'The early medieval silver hoards in Poland' was presented first to the Czechoslovak public in the Moravian Museum in Brno (opened in October 1982) and in Kroměříž (opened in December 1982), and then to the Polish audience in the Archaeological and Ethnographical Museum in Łódź (opened in February 1983). The guides by A. Mikolajczyk were published in Czech (Brno 1982) and in Polish (Łódź 1982). Finally, the exhibition showing 'The ethnographic and numismatic acquisitions in 1982 and 1983' as response to the public wish to have insight into the work of the state institution was opened by mgr J. Piniński in February 1984.

A conference celebrating the golden jubilee of the Museum, organised on October 1st 1981, provided an opportunity for the numismatists to discuss actual questions; it revealed the need of special meetings of representatives of the numismatic museum departments. This was organised by the Museum in December 1981; colleagues representing eight Polish museums were present. A necessity for constant cooperation between the numismatic departments of the Polish museums was felt, based upon friendly collaboration and mutual help, and A. Mikolajczyk's proposal for an Inter-Museum Numismatic College was unanimously accepted. The scope of this new body - created for the first time in the traditionally decentralized museum system in Poland, is the promotion of numismatics in the Polish museums in educational and editorial policy. The foreground tasks are: common pressure towards better security for the collections, publication of the

collections on an all-Polish scale, improvement of the educational level of the staffs and flow of information amongst the coin-cabinets as well as outside.

The successive meetings of the Inter-Museum Numismatic College were to be held in different museums:

National Museum, Warsaw, March 1982
District Museum, Lublin, June 1982
Castle Museum, Malbork, September 1982
National Museum, Cracow, December 1982
District Museum, Bydgoszcz, March 1983
National Museum, Poznań, September 1983
Historical Museum, Gdańsk, December 1983
Castle Museum, Warsaw, March 1984.

With mgr E. Hanc-Maikowa in charge, the secretariat was located in the Numismatic Department, Łódź. Besides various projects undertaken by the participants (ca. 40 museums), the Łódź Museum decided to publish a new journal, 'Sprawozdania Numizmatyczne', containing annual short reports of the acquisitions of the numismatic departments and of other departments collecting coins and medals. Two volumes covering 1981 and 1982 were printed in Łódź (editor A. Mikolajczyk).

Since the Archaeological and Ethnographical Museum is the meeting place of the members of the Numismatic Section of the local division of the Polish Archaeological and Numismatic Society, a long series of lectures was produced during the last three years. Specialists from the whole country delivered 24 lectures on the most important problems of the Polish and Ancient numismatics.

The traditional cooperation between the Numismatic Society and the Museum yielded temporary numismatic exhibitions, displaying private collections of members of the Society. Some recent exhibitions of this kind were entitled '60th Anniversary of Liberated Poland' (1978), 'Coins of the World' (1979), 'Polish Money of the 20th century' (1983). An exhibition is planned to celebrate the Day of the Constitution (May 3rd, 1791) under the title 'Patriotic Memorials of the past in medallion art'.

Andrzej Mikolajczyk

Louvain-La-Neuve

Ouverture du séminaire de numismatique Marcel Hoc à l'Université catholique de Louvain, 17 février 1984. A côté de la moitié de l'ancien fonds de l'Université de Louvain, une partie de la collection du musée biblique, donation de 900 monnaies byzantines de M. le Chanoine Matagne.

Tokyo

Institute for Monetary and Economic Studies, The Bank of Japan.

We have two exhibition rooms. In Room 1, Japanese currency items from the 8th century up to the present are displayed together with old coins from China and other countries having some connection with Japanese currency (about 2000 items). In Room 2, currencies now in circulation and commemorative coins from various foreign countries are exhibited (about 500 items).

Utrecht

Museum van 's Rijks Munt (open on working days 14-16 h). Permanent exhibition on the minting in the Netherlands from the 7th century until present times.

Wien

Institut für Numismatik. Nach dem grossen Münzdiebstahl im November 1979 konnte durch die Aufmerksamkeit und Kollegialität deutscher Münzhändler fast die Hälfte wieder sichergestellt werden. Im weiteren Ausbau der Sammlung wurde der Betreuungsumfang auf die gesamte Numismatik ausgeweitet. Im abgelaufenen Jahr 1983 wurden Objekte für die Sammlung erworben, vornehmlich aus der neuen Münz- und Geldgeschichte. Die Numismatische Zentralkartei, deren Zielrichtung ebenfalls erweitert wurde (Mittelalter und Neuzeit) ist im Laufe des Jahres 1983 auf ca. 540.000 Karteikarten (Abbildungen) in fachsystematischer Ordnung aufgestockt worden. In diesem Zusammenhang wird ausdrücklich allen Museen, Münzhändlern und Sammlern gedankt, die unsere Kartei durch kostenlose Überlassung von Abbildungsmaterial gefördert und unterstützt haben.

Jørgen Steen Jensen has been appointed Keeper of coins at the Royal Collection of Coins and Medals, Copenhagen.

Am 9. März 1984 verstarb in Bern im Alter von 66 Jahren Prof. Hans Jucker, Ehrenmitglied der Schweizerischen Numismatischen Gesellschaft. Der Verstorbene, Ordinarius für Archäologie in Bern bis 1983 war Redaktor der Schweizer Münzblätter von 1964 bis 1967 und langjähriger Konservator des Münzkabinetts am Bernischen Historischen Museum.

In Frankfurt starb am 18. November 1983 im Alter von 81 Jahren Dr. Busso Peus, Münzhändler, Kenner und Sammler von Gnadenpfennigen und Weihemedailen.

A Roma è deceduto il 21 marzo 1984 dott. Alberto Santamaria all'età di 83 anni, capo seniore della Casa P. e P. Santamaria per più di un mezzo secolo.

Dr. Stanislaw Suchodolski a été nommé professeur à l'Académie polonaise des sciences à Varsovie.

Dr. Yoshio Suzuki has been appointed Director of the Institute for Monetary and Economic Studies at the Bank of Japan, Tokyo.

Una nuova rivista di Numismatica pubblicata in Italia

Il Ministero per i Beni Culturali ed Ambientali ha dato inizio alla pubblicazione del 'Bollettino di Numismatica', che viene ad affiancarsi all'altra rivista ufficiale del Ministero, il 'Bollettino d'Arte', dedicato all'arte antica, medioevale e moderna e ben noto agli studiosi.

La nuova rivista di Numismatica, che è stata presentata il 25 ottobre 1983 a un folto pubblico di autorità, di studiosi e di numismatici dal prof. Franco Panvini Rosati, sarà pubblicata in fascicoli semestrali ed è edita dall'Istituto Poligrafico e Zecca dello Stato. Secondo il programma enunciato nell'editoriale del I fascicolo, il Bollettino sarà dedicato in particolare alla pubblicazione dei rinvenimenti monetari e delle raccolte non solo di monete ma anche di medaglie e sigilli conservate nei Musei italiani. In ogni fascicolo vi saranno sezioni dedicate a Ricerche e discussioni, Fonti numismatiche, Fonti archivistiche, Notiziario.

Direttore del Bollettino è il dott. Guglielmo Triches, direttore generale dell'Ufficio centrale per i Beni artistici, archeologici, architettonici e storici del Ministero per i beni culturali ed ambientali; il coordinamento è affidato alla dott. Silvana Balbi de Caro, direttore del Medagliere del Museo Nazionale Romano.

Affiancheranno il Bollettino le Serie speciali dedicate ai cataloghi delle raccolte numismatiche pubbliche, e i Supplementi in cui verranno pubblicati monografie, atti di convegni, raccolte di scritti a soggetto monografico.

Nelle serie speciali è già in corso di stampa il I volume della I serie contenente il catalogo a cura di S. Balbi de Caro delle monete dello Stato Pontificio del Museo della Zecca di Roma, mentre sono previste altre due serie dedicate alla collezione di Vittorio Emanuele III e alla collezione Gnecci.

Ausschreibung zum 7. Eligius-Preis 1983

Beginn der neuen Ausschreibung ist der 1. Dezember 1983. Die Ausschreibung wendet sich an alle Freunde der Münzen- und Medaillenkunde des In- und Auslandes, die nicht als Wissenschaftler, Beamte oder Händler in der Numismatik tätig sind oder waren. Die eingereichte Arbeit soll aus eigener Kenntnis wissenschaftlich und historisch belegt in deutscher Sprache ausgearbeitet sein. Die Arbeit darf noch nicht veröffentlicht oder zur Veröffentlichung anderweitig eingereicht ein.

Die Einreichung soll in vierfacher Ausfertigung, möglichst mit Abbildungen belegt erfolgen, an Dr. Gerd Frese, D-6900 Heidelberg 1, Werderstrasse 53-55, und dort bis zum 15. Mai 1984 eingegangen sein. Die Preisverleihung erfolgt im September 1984 anläss-

lich des 19. Süddeutschen Münzsammlertreffens am 22. September 1984 in Donau-
eschingen. Der Jury gehören Fachnumismatiker und Sammler an. Vergeben wird ein

1. Preis	in Höhe von	DM 1000.--
2. Preis	in Höhe von	DM 600.--
3. Preis	in Höhe von	DM 400.--
Jugendpreis	in Höhe von	DM 200.--
(Alter bis vollendetes 20. Lebensjahr)		

Über die prämierten Arbeiten hat der Verband der Deutschen Münzvereine e.V. das
Erstveröffentlichungsrecht für 2 Jahre nach Bekanntgabe der Preisträger.

Dr. Gerd Frese

1. Vorsitzender des Verbandes der deutschen
Münzvereine

The Indian Institute of Research in Numismatic Studies, the establishment of which
was announced in CIN Newsletter no. 5, was inaugurated on January 8, 1984, by Mr.
Karl J. Khandalavala, a renowned scholar of Bombay, at Anjaneri in the district of
Nasik (Maharashtra). Dr. D.W. MacDowall of the United Kingdom presided.

The aim of this Institute is to build up an exhaustive Library of Numismatic litera-
ture, particularly related to India and the countries with which it had been closely
associated in the past through trade and culture. It will collect as far as possible
all those books, articles and other literature relating to Indian numismatics which
were published in the past at any time, at any place and in any language, either
originally printed or photo-copy or microfilm. It will also collect the future
publications on the subject. The Institute will also have books on history and
allied subjects. The nucleus of this library is the personal library of Dr. P.L.
Gupta; at present there are more than 2000 books and periodicals and about 500
off-prints of articles.

For the study of the coins, the Institute shall have an exhaustive archive of the
photographs of Indian coins. Photographs of about 35.000 coins have already been
obtained.

Eine neue Zeitschrift

Litterae Numismaticae Vindobonenses (LNV). Unter diesem Titel erschien als erster
Band die Festschrift R. Göbl zu dessen 60. Geburtstag 1979. Der Verlag der Oster-
reichischen Akademie der Wissenschaften hat es nun unternommen, unter diesem Titel
ein regelmässiges Publikationsorgan für Numismatik zu schaffen, um 'den Mitarbeitern
der Numismatischen Kommission der Österreichischen Akademie der Wissenschaften und
den Angehörigen und Absolventen des Instituts für Numismatik der Universität Wien in
einem eigenen Fachorgan eine unabhängige und eigenständige Publikationsmöglichkeit
ihrer Forschungsergebnisse und fachlichen Anliegen zu eröffnen.'

Die Zeitschrift wird nicht in regelmässigen Abständen erscheinen, sondern jeweils

'wenn die Beiträge in entsprechender Qualität und Zahl vorliegen'. 'Die LNV sollen natürlich dem numismatischen Gesamtgebiet gelten, was nach unserer Auffassung selbstverständlich die gesamte Geldgeschichte einschliesst, doch entwickeln wir keinen Ehrgeiz nach einer gleichmässigen Verteilung der Beiträge auf das Gesamtgebiet. Der Sinn liegt vielmehr darin, Ergebnisse möglichst rasch zu Wort kommen zu lassen'. (R. Göbl im Vorwort)

Der 2. vorliegende Band 1983, 402 Seiten, 35 Tafeln, enthält vorwiegend Beiträge zur antiken Numismatik von Autoren der Wiener Schule.
